Our Company

StakedVaults is an innovative company leveraging the Lending dan Staking process within the technology of Blockchain and Cryptocurrency. With the vast knowledge in both BlockChain and Cryptocurrency coupled with Finance and Digital Assets Management, StakedVaults would become a global name as early as 2024.

Operated, Hosted and Managed in Shenzen Industrial Park China back in October 2023, StakedVaults now have a liaison office in the heart of Dubai Business Center. This liaison office will became the front-end for StakedVaults to open it business with global clientele.

CONTINUE

StakedVaults Stake Technology

StakedVaults firstly started with Lend-Stake technology whereby user can generate daily income with APY rates from 5% to 29% based on 3, 6 or 9 month contract. It's a small pace program for those clientele who wanted to start with minimal deposit (as low as USD\$1). Eventhough it has a good remunerative referral rewards, the outcome is small and slow.

To cater clientele who wanted a smart and good weekly income generated from their "digital assets" withholding, StakedVaults now open its service for Cloud-Stake technology. This gives a potential return of investment over 200% with a 36 weeks contract. It features a 5-level referral commission and sponsorship bonuses, catering to a wide audience.

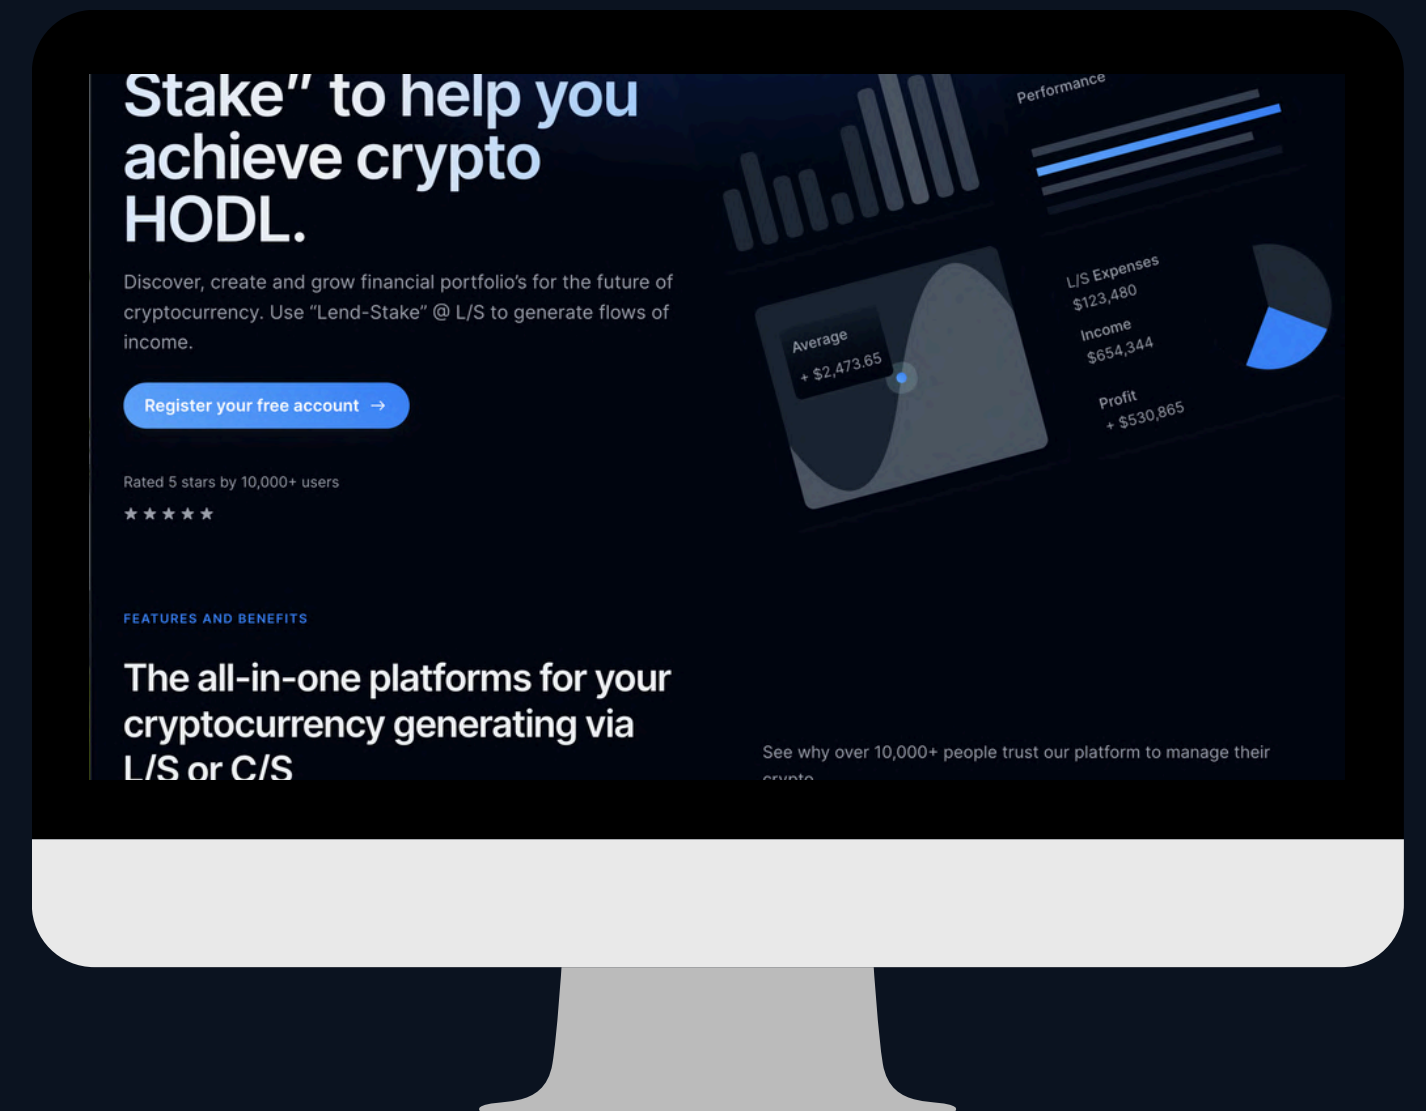

History and Evolution

The concept of cryptocurrency began in the early 2000s, but it wasn't until the launch of the first decentralized cryptocurrency in 2009 that it gained significant attention. Since then, thousands of cryptocurrencies have been created, each with unique features and applications, marking a new era in the financial landscape.

Leading the Market

There are thousands of cryptocurrencies, but a few have emerged as leaders due to their market capitalization, technological innovations, and widespread adoption. These major cryptocurrencies serve various purposes, from being a medium of exchange to providing smart contract functionality and enabling decentralized finance (DeFi) applications.

What is "Lend-Stake"?

Lend-Stake is a process where user can use their "small change" digital assets located on their personal wallet (TrustWallet, Exodus, Coinomi, Atomic, Guarda or others) to purchase a lend-stake process which in turn giving a profit in USD to be exchange (withdraw) for others coin/token listed on the platform.

What is "Cloud-Stake"?

Cloud-Stake is a process where user can use their digital assets located on their personal wallet (Trust Wallet, Exodus, Coinomi, Atomic, Guarda or others) to purchase a cloud-staking process which in turn giving a profit in USD to be exchange (withdraw) for others coin/token listed on the platform. The process is most rewarding.

It is instead of simply holding crypto assets, cloud-stake is a way like Yield-Farming for enterprising people to maximize their returns on their holdings.

Lend-Stake Plan

3 MONTH

projected APY:
5%

- Starter User
- Short term profitable
- Intelligent platform
- Real time Lend-Stake

Package Value : USD 1000 - USD 2,499

Direct Sponsor, Level 1, Level 2, Level 3, Level 4, Level 5.

Package Value : USD 2,500 - USD 4,999

Direct Sponsor, Level 1, Level 2, Level 3, Level 4, Level 5, Level 6, Level 7.

Package Value : USD 5,000 and Above

Direct Sponsor, Level 1, Level 2, Level 3, Level 4, Level 5, Level 6, Level 7, Level 8, Level 9, Level 10.

Sample Cloud-Stake Calculation

Deposit USD 1,000

Sponsor Bonus 10% = USD 100

Weekly Profit Return 5% - 7%

USD 1,000 x 7% = USD 70 Weekly Return

Matching Bonus 10 Level

L1 25% x USD 70 = USD 17.50

L2 10% x USD 70 = USD 7.00

L3 5% x USD 70 = USD 3.50

L4 5% x USD 70 = USD 3.50

L5 5% x USD 70 = USD 3.50

L6 4% x USD 70 = USD 2.80

L7 4% x USD 70 = USD 2.80

L8 4% x USD 70 = USD 2.80

L9 4% x USD 70 = USD 2.80

L10 4% x USD 70 = USD 2.80

Future Project

Exciting Plans Ahead

We're gearing up to integrate multiple services into our domain, including a cutting-edge Cryptocurrency Exchanger. This feature will allow all our users to effortlessly swap cryptocurrencies. Our ambitious roadmap is on track, with a market launch planned for Q4 2024.

Marketplace Launch

But that's not all! We're also planning to unveil a dynamic Marketplace where users can buy and sell items, including services, using cryptocurrency. This platform will feature robust ESCROW services to ensure trust and ease of transactions. Set to go live in Q2 2025, the Marketplace will initially be available to our valued StakedVaults customers, who will receive exclusive Token Airdrops to their registered wallets.

Seamless Integration

Partnering with reputable payment gateways for cryptocurrency integration and processing, we're moving closer to our goal of delivering superior services. Stay tuned as we continue to elevate your digital asset experience with StakedVaults.

The all-in-one platforms for your
cryptocurrency generating via
Lend-Stake or Cloud-Stake
